ABOUT ME

I have completed my BSC in Biotechnology and recently i have completed my Python full stack developer and side ways Linux course with hands on project experience designing and deploying scalable web applications using PYTHON and MySQL. Adept at building responsive, dynamic front-end user interfaces using HTML, CSS, JavaScript, and React while engineering secure, optimized back-end logic via Django. Proven track record of optimizing database queries and schema design in MySQL, resulting in a 25% improvement in application data retrieval times. Highly skilled in bridging the gap between client-side aesthetics and robust server-side data architecture.

EDUCATION

Jain Deemed To Be University

BSC - Biotechnology, CGPA: 6.42

Dec 2025 | Bangalore, Karnataka

PROFESSIONAL EXPERIENCE

Chethan

Training, Internship

Jan 2026 - Sep 2026 | Bangalore, Karnataka

Python Full Stack Developer Course and Internship - Besant Technologies Gained practical exposure to Real-world application in

Python Full Stack Developer — Project Experience

- Employee360 – Employee Management System | 2026

- Developed a full-stack Employee Management System using Python, Django, React.js, JavaScript, HTML, CSS, Bootstrap, and MySQL.

- Built responsive interfaces for Dashboard, Employees, Departments, and Tasks modules with CRUD functionality.

- Developed Django REST APIs for employee, department, and task management and integrated them with the React frontend.

- Implemented database relationships, foreign keys, validation, filtering, and search functionality using MySQL.

- Implemented authentication and structured frontend-backend communication using REST APIs.

- Used Git and GitHub for source-code management and project version control.

- Worked with Linux/Ubuntu and practiced deployment of full-stack applications in an AWS environment.

- Troubleshoot frontend, backend, database, and API integration issues during application development.

- Python & MySQL — Application Development Project

Software Sales / Cloud Services Based Application | 2026

- Developed a backend application using Python 3.14 and MySQL 8.

- Designed relational database tables and implemented SQL queries for managing application data.

- Connected Python applications with MySQL and performed database operations including insertion, retrieval, updating, and deletion.

- Applied Python programming and database concepts to build a structured backend application.

- Linux & AWS — Deployment Project

Jenkins Deployment on Ubuntu Server in AWS | 2026

- Set up and worked with Ubuntu Linux in an AWS environment.

- Configured an AWS EC2 Ubuntu server and established SSH-based server access.
- Installed and configured development tools and services using Linux command-line utilities.
- Practiced deploying and managing Jenkins on an Ubuntu server hosted on AWS.
- Gained hands-on experience with Linux administration, Git, AWS EC2, networking, and deployment workflows.

Projects

- Software sales/Cloud services Based Application Using Python 3.14 and MySQL8 in Backend
- Deploying Jenkins on My Ubuntu Server in AWS
- Employee360 – Employee Management System

PROFESSIONAL SKILLS

- **Hard Skills** - Python / Python 2.5 / Python 2.7 / Python3.2 / Python 3.12 / Python script / Python 3.13 with MySQL 8.0, JavaScript, HTML, CSS, Bootstrap, React.js, Django, MySQL, Linux, AWS EC2, Git, GitHub.
- **Soft Skills** - Professional Communication, Problem Solving, Adaptability, Leadership & Coordination.

Language

Languages : English, Kannada, Hindi, Telugu.

Certifications : Python Full Stack Developer and Python Full Stack Developer Intern.
